ABOUT ME

I am a software engineering student with a strong background in web development and experience in game development and embedded software programming. I have also been a part of several startups, gaining valuable experience in innovative and dynamic environments. I am passionate about creating efficient and impactful software solutions and am always eager to take on challenging projects that allow me to grow both personally and professionally.

WORK EXPERIENCE

01/10/2024 – CURRENT Novi Pazar, Serbia
WEB PROGRAMMING TEACHER CENTAR NIT

- Delivered web programming lessons to students, covering topics like HTML, CSS, JavaScript, and basic frameworks.
- Designed and implemented hands-on projects to help students understand real-world web development applications.
- Created and provided supplementary learning materials to improve students' technical skills.
- Mentored students on best coding, debugging, and project management practices.
- Adapted teaching strategies to accommodate different learning paces and skill levels.

15/08/2022 – 20/05/2023 Novi Pazar, Serbia
FRONTEND TEAM LEADER MOJNP

- Led a team of frontend developers in designing and implementing responsive, user-friendly web interfaces using modern frameworks such as React and Next.js.
- Coordinated with product managers and designers to translate business requirements into functional, visually appealing applications.
- Mentored intern developers, conducted code reviews, and implemented best coding practices to maintain high-quality code standards.
- Optimized frontend performance and ensured cross-browser compatibility and progressive web application for all projects.
- Integrated frontend features with backend APIs, ensuring seamless functionality and a positive user experience.
- Delivered projects on time while managing team workloads and fostering a collaborative development environment.
